PROFESSIONAL SUMMARY

B.Sc. Computer Science final-year student with hands-on experience in software and web application development, Python programming fundamentals, NumPy, SQL/MySQL, and database-driven projects. Familiar with Python, PHP, JavaScript, HTML, CSS, Bootstrap, OOP, DBMS, Git/GitHub, debugging, and RPA concepts. Experienced in developing functional web applications and working with databases, authentication, CRUD operations, and application logic. Seeking an entry-level opportunity in software development, web development, Python, IT, testing, or automation.

EDUCATION

Bachelor of Science (B.Sc.) – Computer Science **2024 – 2027**
Deogiri Institute of Technology and Management Studies, Chhatrapati Sambhajinagar **CGPA: 8.91**
HSC — Rameshwar Junior College, Bhokardan **2024 | 81%**
SSC — New High School, Bhokardan **2022 | 90.20%**

PROJECTS

Employee Productivity & Task Management System | Full-Stack Web Project

- **Problem solved:** Helps organizations reduce manual employee/task tracking, improve task assignment and status visibility, and simplify productivity reporting.
- Developed a role-based web application for managing employees, tasks, projects, and productivity information.
- Built responsive interfaces using HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, and Chart.js.
- Implemented backend functionality using PHP 8 and MySQL on XAMPP, including authentication, CRUD operations, database integration, validation, and dashboards.
- Worked on database design and application logic to organize employee and task information efficiently.

Blood Bank System | PHP/MySQL Project | 3-member team

- **Problem solved:** Simplifies donor registration, blood requests, and blood-stock information handling in one database-driven system.
- Contributed to backend logic and MySQL database integration as part of a 3-member project team.
- Worked with database operations and application functionality for donor and blood-stock information.

TECHNICAL SKILLS

- **Programming:** Python, PHP, JavaScript
- **Python Libraries:** NumPy
- **Web Development:** HTML5, CSS3, Bootstrap 5
- **Database:** SQL, MySQL
- **Concepts:** OOP, DBMS, Data Structures Basics
- **Tools:** VS Code, XAMPP, Git, GitHub
- **Other:** RPA, Workflow Automation, Software Robot Development, Debugging, Problem Solving

CERTIFICATIONS

- **Bootcamp on Robotics Process Automation** — NIELIT Chhatrapati Sambhajinagar in association with Deogiri Institute of Technology and Management Studies (DITMS), FutureSkills PRIME Project | 2026
- **Programming Fundamentals using Python** — Infosys Springboard
- **SOAR – AI to be Aware** — Microsoft & NCVET

RELEVANT LEARNING

- Python programming fundamentals, NumPy basics, logic building, and problem solving
- Web development using HTML, CSS, JavaScript, PHP, and Bootstrap
- Database fundamentals, SQL/MySQL, CRUD operations, and database integration
- OOP, DBMS, Data Structures basics, debugging, and application development
- RPA concepts, workflow automation, and software robot development
